Shoreline Parks are tobacco-free

On March 26, Council took the historic step of making all Shoreline parks tobacco free. Ordinance No. 630, which prohibits smoking and the use of smokeless tobacco on all Shoreline park property, passed unanimously.

Tobacco-free parks help reduce exposure to second-hand smoke for children and families, and reduce pollution from cigarette butts, which is one of the main sources of litter in public places. Establishing tobacco-free parks is also part of a broad movement to create healthy and smoke-free areas, especially for children. Tobacco use in places like parks can send a mixed-message to children and youth that tobacco products are consistent with a healthy environment and lifestyle.

In a recent survey of King County residents, 70 percent said they support smoke-free public places, including parks. These survey results were echoed by Shoreline residents and park users, as 69 percent of respondents who took an online City survey stated that they would support a policy that prohibits the use of tobacco products in City parks.

In the coming months, Shoreline Parks and Recreation staff will begin installing park signage that communicates that all parks are tobacco-free.

Celebrate Kruckeberg Botanic Garden's 25th annual Mother's Day plant sale

**Pre-sale event for garden members, new members welcome
Thursday, May 10, 3:00 to 7:00 p.m.**

**Plant sale open to the public
Friday to Sunday, May 11-13, 10:00 a.m. to 5:00 p.m.**

Explore a diverse selection of native plants and unusual exotics at the area's original spring plant sale, now in its 25th year!

On Saturday and Sunday, there will be free garden tours at 1:00 p.m. and family activities all day in the Sprout Spot where kids can get their hands dirty and make a gift for Mom!

Due to limited neighborhood parking, visitors should use the off-site parking area and shuttle. Park at Richmond Beach Congregational Church, 1512 195th St, on May 11 and 12 and at Syre Elementary School, 19545 12th Avenue NW, on May 13. Shuttle riders receive a coupon to use at the sale.

For more information visit kruckeberg.org or call (206) 546-1281.

Council appoints five individuals to Library Board

On Monday, March 26, the Shoreline City Council appointed five individuals to the Shoreline Library Board. A subcommittee of the Council, Mayor Keith McGlashan, Deputy Mayor Chris Eggen and Councilmember Chris Roberts, reviewed 13 applications and made their recommendations to the whole Council.

The large number of Board vacancies resulted from the completion of two full terms by Mary Lynn Potter, the end of terms for Sara Lorimer, Tom Moran and Sidney Strong, and the mid-term resignation of Jenny Hannibal. Moran and Strong chose not to reapply as board members.

Those selected for four-year terms were Sara Lorimer, Mark A. Hulak, Lisa Oberg and Karen Thielke. Eileen Wood-Lin will fill the remaining two years of Hannibal's term. The new board members will join current members Corey Murata, Susan Hoyne and Youth Members Elizabeth Knowles and Laura Delaney.

The Council would like to thank retiring members Potter, Moran and Strong for their service.

The Shoreline Library Board was created in 1995 to provide input to the King County Library System (KCLS) on issues relating to Shoreline libraries. As an advisory group, their responsibilities include making recommendations to KCLS regarding issues of utilization of the libraries, enforcement of rules and regulations, improvements to the building and collections, and scope and quality of service. KCLS is responsible for the operation of over 40 library branches in King County, including the Shoreline libraries. In 2010, the system had a circulation of 22.4 million items (books, magazines, videos, CD's, etc) making it the busiest system in the United States.

Spring Recycle Fest

Saturday, May 19

Shoreline Park & Ride

Aurora Avenue N and N 192nd Street

9:00 a.m. to 3:00 p.m.

Shoreline's Spring Recycle Fest will offer residents the opportunity to recycle items that do not normally go in curbside recycling carts. In addition to accepting Styrofoam, plate glass and a variety of construction materials, the City, in partnership with CleanScapes, will collect bicycles in any condition for recycling at the event.

CleanScapes is collaborating with Bike Works, a non-profit that works to build sustainable communities, to collect unused and unwanted bicycles and bike parts. The bicycles and parts support a variety of programs, such as a program where youth can learn bike repair and earn a bike, the Bike Works' community Bike Shop that makes bikes affordable and accessible to the community, and bicycle aid programs that donate bicycles to villages in Africa. Bikes beyond repair are stripped down to their frame, and CleanScapes recycles the leftover scrap metal. For more information, visit Bike Works' website at bikeworks.org.

Recycle Fest is free for all Shoreline residents. Proof of residency is required. Event flyers with additional details will be mailed to all residents. Bring the event flyer that you receive in the mail or your driver's license with a Shoreline address on it to prove residency.

Note that only pick-up trucks or smaller vehicles will be allowed to enter. If you are hauling items on behalf of a neighbor or want to bring a trailer to the event, you must call (206) 801-2455 for approval prior to the event.

Shoreline's Recycle Fest is sponsored in cooperation with the King County Solid Waste Division, the Local Hazardous Waste Management Program in King County and the Washington State Department of Ecology. For more information, contact the Shoreline Customer Response Team at (206) 801-2600.

Items to Bring:

- ✓ Bicycles
- ✓ Large electronics: Computers, monitors, laptops, televisions
- ✓ Small electronics: phones, mice, keyboards, printers, adapters, etc.
- ✓ Refrigerators, freezers and air conditioning units
- ✓ Carpet, drywall and porcelain
- ✓ Scrap metal: Lawn mowers, ovens, stoves, hot water heaters, washers, dryers and barbecues (remove all non-metal parts and drain all liquids)
- ✓ Concrete, asphalt and rock (no dirt)
- ✓ Roofing shingles: asphalt and wood shingles
- ✓ Cardboard
- ✓ Plate glass (no mirrors)
- ✓ Motor oil, antifreeze and filters
- ✓ Styrofoam blocks and packing peanuts

Don't Bring:

- ✗ Garbage or yard debris
- ✗ Doors, wall paneling and cabinets
- ✗ Hazardous materials, such as fluorescent bulbs and tubes, propane tanks, household chemicals, paint, cleaning products, pesticides, herbicides, solvents and thinners; commercial waste
- ✗ Mirrors
- ✗ Hot tubs
- ✗ Tires

Visit shorelinewa.gov/environmentalservices to learn where to take these items.

Did

know?

May is Puget Sound Starts Here month. Puget Sound is in trouble. It may look pristine on the surface, but water tests and photos below the surface tell a very different story. Puget Sound "starts here" in Shoreline and in all areas where water runs downhill into the Sound. Learn how your actions affect the quality of water in our streams, lakes and Puget Sound by participating in one of the events listed on the May calendar at pugetsoundstartshere.org.

Representative Jim McDermott tours Shoreline

On March 16, Representative Jim McDermott toured the City of Shoreline with Shoreline City Councilmembers and City staff. With the approval of the new congressional district map for Washington earlier this year, the City of Shoreline is now part of McDermott's 7th Congressional District. Shoreline had previously been part of Representative Jay Inslee's 1st Congressional District.

McDermott met with Councilmembers to discuss City priorities and then took a tour of Shoreline's Aurora Corridor Improvement Project. The Project has received a number of large federal grants, so it is vital

that McDermott have a chance to see the many positive improvements and support future funding requests to complete the project.

The tour then moved to Shoreline Community College (SCC) where McDermott toured SCC's Professional Automotive Training Center (PATC). The PATC is the premier automotive technician training program in the U.S.

After the tour, McDermott attended a reception with local elected officials, community partners and staff from the new parts of his district, including the City of Edmonds, the Town of Woodway, SCC and Community Transit.

Sheep, llamas and goats help City's Surface Water Utility with vegetation management

Recently, you may have noticed goats, llamas, and sheep eating grass and invasive weeds in and around several City surface water facilities. They are there as part of a pilot project that will test the feasibility of using animals for vegetation management in some areas within the City. Using goats and similar animals allows for a lower environmental impact while keeping costs under control.

The City is working with an outside contractor who is responsible for the care and well-being of the animals. A shepherd will be onsite full time for larger sites and part time in fully fenced smaller areas.

If you have questions, concerns or feedback, please contact Senior Engineering Technician Eric Gilmore at (206) 801-2454 or egilmore@shorelinewa.gov.

Armed Forces Appreciation Week May 28 - June 1

In observance of Memorial Day on Monday, May 28, the Shoreline City Council will proclaim the week of May 28 through June 1 as "Armed Forces Appreciation Week" in the City of Shoreline. It acknowledges the important sacrifices that members of the United States military and their families make to our City and nation.

Thousands of United States troops have sacrificed their lives in service to their country in current and past military campaigns. The families of these brave men and women have also sacrificed while providing support for their loved ones engaged in military operations and often away from home for months at a time. The City Council urges Shoreline residents to reflect on the contributions made by our armed forces and find your own way to support them and their families.

Police Chief Pingrey leaving Shoreline

Shoreline Police Chief Dan Pingrey has recently accepted a promotion within the King County Sheriff's Office (KCSO). Pingrey has been promoted to Chief of KCSO's Patrol Operations Division, which is the largest division within the Sheriff's Office and oversees all patrol operations for KCSO, including those for contract cities and transit police.

Pingrey has been a familiar face in Shoreline for a long time. He has

been the Chief of the Shoreline Police Department since 2008. Before becoming Chief, Pingrey also served as a sergeant from 1996 to 1998 and was Shoreline's captain from 2005 to 2007. Pingrey has been with the King County Sheriff's Office for 23 years after starting his career in Kirkland.

"Dan has been a tremendous asset to the City," says Shoreline City Manager Julie Underwood. "We are sorry to see him go, but we are very

excited for him and congratulate him on his promotion!"

Underwood anticipates selecting a new Police Chief by the end of May. Working with the King County Sheriff's Office, Underwood will choose from a pool of highly qualified applicants from the Sheriff's Department. Candidates will be interviewed by a panel of Shoreline staff, the City's Leadership Team and Underwood.

Shoreline Police engage Shorewood High School students through dance

The Shoreline Police Department is always looking for innovative ways to reach out to the community, particularly with youth in the community. Community Service Officer Dahlia Corona's work with Hispanic students at Shorewood High School is a perfect example.

Part of Officer Corona's duties include seeking ways to keep teenagers engaged in school and the community through positive recreational and educational activities. One such program targets the Hispanic student population at Shorewood High School. In speaking to the students, she found that they had a strong interest in traditional Mexican folk dancing. Inspired by the students' passion for their cultural heritage, Officer Corona found a dance teacher that specializes in Mexican folk dancing and organized Shoreline's first Mexican Folk Dance Group.

Currently, the group is made up of 12 students from Shorewood High School. Participation in the

group will provide students with a sense of ownership, support and representation in the school. The students will give back to the community by performing at community events and at the Shoreline-Lake Forest Park Senior Center and area nursing homes.

Eventually, the group will be open to all middle and high school students in Shoreline who are interested in learning about and performing Mexican folk dances.

If you would like to help these students with their fledgling program, donations are being accepted to help them purchase traditional outfits for performances and equipment and to help pay for traditional Mexican dance instruction. Contact Community Services Officer Dahlia Corona at (206) 801-2719 or dahlia.corona@kingcounty.gov.

SPU water system acquisition

More investment in Shoreline, no more taxes to Seattle

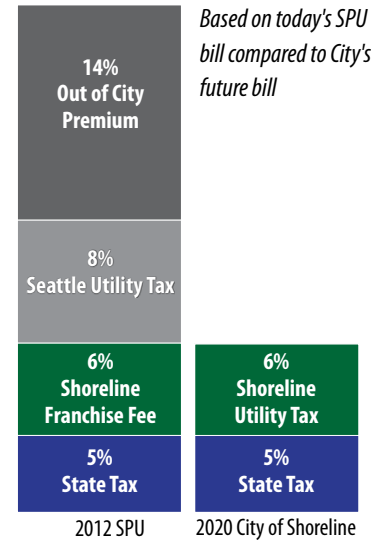

Over the past several months, EES Consulting has been working with City staff and the SPU Citizen Steering Committee to conduct the City's due diligence for the acquisition of the SPU water system. The primary objective is to see if the Council's requirements for acquiring the utility can be met. Council has stated that they will only move forward if the acquisition price, when added to other costs to operate and maintain the system, would not increase a ratepayer's monthly bill beyond SPU's forecasted rates. To test that, EES Consulting has conducted an engineering analysis and prepared financial models to determine projected rates for a City water utility.

In looking at how a City of Shoreline water utility ratepayer's money would be spent in 2020 compared to how it is currently spent, two things stand out. One of the primary reasons Shoreline is interested in acquiring the SPU water system is that it will allow the City to have more control over how money is reinvested back into the Shoreline

system. Currently, for every dollar a Shoreline ratepayer pays to SPU, approximately \$0.32 goes towards infrastructure and maintenance of the SPU system. However, since Shoreline only represents a small part of the infrastructure in SPU's system, only about \$0.08 of that amount is invested in Shoreline. Stated another way, approximately 76% is invested outside Shoreline, primarily in Seattle.

The other number that stands out from the analysis is the amount of taxes Shoreline ratepayers pay to the City of Seattle. Currently, Seattle charges a utility tax on SPU's total revenues. The City of Shoreline charges a 6% franchise fee (this fee is used to compensate Shoreline for SPU's use of the City's right-of-way) and the State charges a 5% utility tax. The money collected by SPU from Shoreline ratepayers goes directly into Seattle's general fund. In other words, approximately 8% of the monthly bill goes to pay for Seattle parks, sidewalks, police, neighborhoods, etc. In addition, Shoreline

Taxes included in your water bill

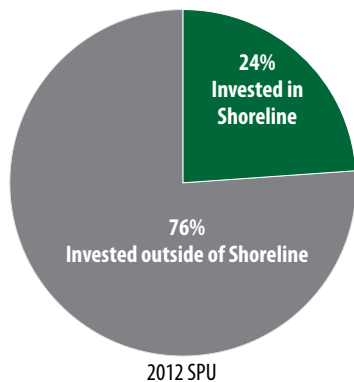

ratepayers are charged a 14% out of city premium which reduces the rate for Seattle ratepayers. In 2020, under a Shoreline water utility, none of a Shoreline ratepayer's money would go to the City of Seattle general fund or be used to subsidize Seattle ratepayers.

Once the due diligence process is completed, the SPU Steering Committee will make a recommendation to the City Manager on whether to acquire the water system. The City Manager will then make a final recommendation to the City Council, which will take action in early July. The acquisition decision would then go before Shoreline voters on the November ballot.

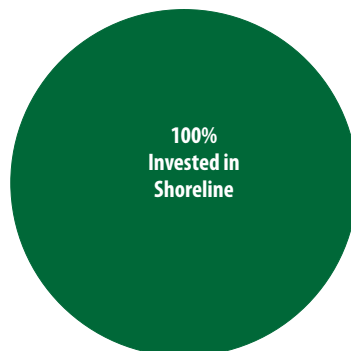

For more information about the SPU acquisition, visit the project page at shorelinewa.gov/spu.

Thank you Shoreline volunteers!

Shoreline City Council honored City volunteers with a reception at City Hall on April 18 during National Volunteer Week. City volunteers donated 19,530 hours of service in 2011. Some of the many ways volunteers help: include serving on citizen advisory groups, staffing police neighborhood centers, beautifying our parks, supporting emergency operations, assisting with recreation programs and many other valuable projects.

To learn more about volunteer opportunities with the City, visit the City's website.

Volunteer Soiree in the City Hall lobby

Council would like your input on proposed tree code amendments

Monday, May 21 at 7:00 p.m.
Council Chambers

Since early 2009, the Planning Commission and City staff, at the direction of the City Council, have been studying updated development regulations for trees. The goal has been to see how to make the code more predictable and user friendly for property owners while at the same time ensuring it protects the City's urban tree canopy. The Planning Commission has held numerous study meetings on the topic, Council and the Planning Commission held a joint meeting to discuss regulations and City staff held several public meetings to gather public input on potential tree code amendments.

On March 15, the Planning Commission made their final recommendations to Council. Council will discuss the Planning Commission's recommendations at its May 21 Council meeting. Council would like to receive your input on the recommended amendments.

Council understands that this is an important topic to people on all sides of the issue. Regulation of trees on private property is always difficult. Trees provide benefits to the entire community by helping reduce stormwater

runoff and improving water quality, absorbing carbon, improving air quality and providing habitat for wildlife. At the same time, this country takes great pride in individual property rights and the City believes strongly in protecting those rights.

Council is working hard to balance the competing interests to ensure private property rights and our urban tree canopy are both protected. If you would like to learn more about the proposed tree regulations visit the City's website or contact Senior Planner Paul Cohen at pcohen@shorelinewa.gov or (206) 801-2551.

Shoreline's economic development future

Improving economic development opportunities in Shoreline has been a long-term Council goal and community priority. The ability to expand the local economy through new development and jobs will have a significant impact on the City's long-term financial sustainability and stability. Vibrant economic growth provides increased revenue that allows the City to continue providing municipal services in the face of rising costs.

In addition, the adopted Vision 2029 statement describes Shoreline as a thriving city with vibrant neighborhood "main streets," a safe and progressive place to live, a place that is known for its outstanding schools, parks and youth services, and Aurora Avenue as a thriving corridor with a variety of shops, businesses, eateries and entertainment. The City's Economic Development Program is in large part aimed at implementing and fulfilling this vision for the community.

However, Shoreline faces a number of challenges in achieving its vision. Over the past decade, Shoreline has experienced a low rate of growth in assessed property value, a decline in gambling tax revenue and essentially no population growth. Some of the reasons for this can be attributed to the "Great Recession," but certainly not all. For example, consider that during the same decade, King County and Washington State's populations grew by 11.2% and 14.1% respectively, while Shoreline's population did not grow at all. The only major indicator that roughly kept pace with the King County average was retail sales tax revenue, which grew by nearly 12% over the decade.

The City Council is actively working to energize new construction and population growth in the city by honing legislation and providing incentives when possible. In order to encourage sustainable development and enhance the City's housing stock, the Council recently adopted the Town Center Subarea Plan and expanded the property tax exemption program. The adoption of the 2012-2017 Economic Development Strategic Plan in January helps to guide economic development efforts. By the end of 2012, Council hopes to adopt a new Comprehensive Plan and streamline the commercial zoning designations, both of which allow the City to more efficiently partner with investors.

Six-year Economic Development Strategic Plan adopted

In early 2011, the City Council launched an economic development strategic planning effort.

The year-long collaborative process resulted in an adopted Economic Development Strategic Plan that will guide efforts through 2017. "Place making" emerged as the central theme of the Plan. Fred Kent, a leading authority on revitalizing city spaces, calls place making the thing that "turns a City from a place you can't wait to get through into a place you never want to leave." The plan specifies that place makers should focus their efforts on creating cachet, building infrastructure, collaborating, serving businesses and honing legislation.

Place making efforts will touch many parts of Shoreline in the years to come, but special attention will be paid to four specific projects with the potential to dramatically

affect the economic vitality of Shoreline.

1. Creating a dynamic Aurora Corridor neighborhood to unleash the potential created by the City's tremendous infrastructure investment.
2. Reinventing Aurora Square to help catalyze a master-planned, sustainable lifestyle destination.
3. Unlocking the Fircrest surplus property to establish a new campus for hundreds of family-wage jobs.
4. Planning light rail station areas to create connectivity for appropriate growth.

An annual update will be presented to Council that includes metrics designed to monitor Shoreline's economic health.

Economic development update

It can be a challenge keeping current with the many projects taking shape in Shoreline!

- By far the largest project in Shoreline – and currently one of the largest public projects in the state – is the school district’s \$150+ million investment in rebuilding Shorewood and Shorecrest High Schools. Visit shorelineschools.org/modernization for renderings and updates on these exciting projects.
- The Artiste Apartments is the \$18 million, 148-unit apartment complex nearing completion on 201st and Aurora Avenue N. It is owned, built and managed by Weidner Apartment Homes, which also owns Forest Hills Apartments on 175th.
- Aurora Rents will be celebrating its 50th year as a family owned business serving Shoreline residents and businesses by moving back to its flagship store location on the southeast corner of 175th and Aurora Avenue N. As soon as the new building is completed later this year, Aurora Rents will leave its temporary location on 192nd and Aurora.
- Inland Construction is scheduled to begin construction in late spring of North City Family Apartments, a \$19 million 165-unit complex that will feature affordable family-size homes. The complex will occupy the old YMCA site on NE 12th Street just north of 175th behind Laughing Ladies Coffee Shop.
- Kings High School, part of the CRISTA campus in Hillwood, plans to begin construction of its new STEM (Science, Technology, Engineering and Math) Building soon with completion planned for fall of 2013. The \$11 million three-story building provides 15 classrooms and is the first project built under CRISTA’s recently approved campus master plan.
- Shoreline Community College is going through the process to amend its master plan to allow student housing to be built on campus. SCC believes student housing to be integral to its strategy to nearly double the number of international students it trains in Shoreline.

Finally, please don’t forget to shop Shoreline! The City’s economic vitality depends on you.

CRISTA campus

Shoreline Fire Department

9-1-1 Be Prepared Before an Emergency!

If you are ever in a situation where you need to call 9-1-1, it is important to remember a few simple tips. Calling 9-1-1 can be very stressful and overwhelming. One of the most important things you can do is try to remain calm. Shoreline Firefighters and Paramedics are dispatched via the North East King County Regional Public Safety Communication Agency (NORCOM), located in Bellevue. NORCOM is staffed by professionally trained dispatchers who are there to help you.

Below are some suggestions taken from NORCOM's website. For more information about 9-1-1 visit norcom.org.

When should you call 9-1-1

- When you see smoke or fire.
- When someone's life and/or property are in immediate danger.
- When you see a crime being committed.
- When rescue or emergency medical assistance is needed.
- When you are not sure, call and let trained personnel decide.

What will the dispatcher ask you when you call 9-1-1?

Every person that calls 9-1-1 is asked a standard set of questions that help the dispatcher prioritize your call and provide responding personnel with vital information before they arrive. Dispatchers will ask for your location, the location of the incident, the nature of the problem, when the incident occurred, and a description of people and/or vehicle(s) involved, if applicable.

Sometimes dispatchers repeat questions. Do not get frustrated. You may give more detail the second time the question is asked. Answering dispatcher questions will not delay an emergency response. In most instances, assistance will be dispatched while you are still on the phone. Stay on the phone and answer the questions as calmly as you can. Do not hang up until the 9-1-1 dispatcher or on-scene emergency responders direct you to do so.

Make sure your address and phone number are posted by the phone(s), so they can be read by anyone using the telephone in an emergency. In times of emergency, even people who have lived in their home for 20 years have been known to forget their information.

If you are on a cell phone, dispatchers cannot detect your location, so it is especially important that you provide accurate location information.

When giving information, do not edit or exaggerate!

Give all the information that you have. Sometimes what may seem unimportant to you can provide valuable information to emergency responders. By fully answering questions, the dispatcher can relay important information to the units responding prior to their arrival. This increases the chances of a successful outcome to the call.

What about dialing 9-1-1 in a major disaster?

Please check your radio and television for emergency broadcasts of information and updates rather than calling 9-1-1. The less the phone lines are used, the more service there will be for true emergencies. If you do need to call 9-1-1, remember it may take five to six minutes to reach a dispatcher due to high call volumes. Emergency information will also be available on the City's website at shorelinewa.gov and the Regional Public Information Network website at rpin.org.

If you were injured, would your child know how to use 9-1-1?

Make sure your child knows the following information:

- Name of all family members, including child's
- Address (including name and number of building, condominium or apartment complex, if applicable)
- Phone number
- Directions to your home from the nearest main road, intersection or major landmark

If you would like more information about the Shoreline Fire Department visit shorelinefire.com.

Adoption of framework policies for light rail station area planning

Monday, May 14 at 7:00 p.m.
Council Chambers

Even though light rail service in Shoreline is not scheduled to begin until 2023, planning for it is in high gear. Late last year, the Sound Transit Board of Directors unanimously adopted a light rail alignment along I-5 as the locally preferred alternative, and directed Sound Transit staff to begin preparing a Draft Environmental Impact Statement (DEIS) for the I-5 alignment. The DEIS will analyze several alternatives for potential station locations along the corridor, including whether a proposed station at NE 185th Street should be located on the east or west side of I-5, as well as the potential for a station at NE 155th Street (instead of NE 145th Street).

Light rail is a key mobility strategy that is highlighted in Shoreline's adopted Vision 2029, Environmental Sustainability Strategy and Transportation Master Plan. In support of light rail coming to Shoreline, Council has directed City staff to develop a set of framework policies that will guide the City's future discussions and decisions regarding the planning and development of the areas surrounding light rail stations in Shoreline. Having policies in place regarding future land use and zoning decisions is also intended to improve the North Corridor Project's competitiveness to receive federal funding.

Station area planning includes the rail facility, improvements to connect buses, cars and pedestrians to the trains and housing and commercial space options. Station area planning will begin following Sound Transit's environmental review process for the North Corridor Transit Project, expected in 2014. Zoning updates needed to implement the station area plans will be complete by 2016.

To learn more about the framework policies and to comment on them, visit the City's website. If you have any questions, contact Planning and Community Development Director Rachael Markle at rmarkle@shorelinewa.gov or (206) 801-2531.

Upcoming Events

Saturday, May 12

10:00 a.m.

Work party at the community garden at Twin Ponds Park

12:00 to 5:00 p.m.

Strawberry Festival at Richmond Beach Community Park

6:30 to 10:30 p.m.

Free Tween Night for 5th and 6th graders at Richmond Highlands Recreation Center

Saturday, May 19

9:00 a.m. to 3:00 p.m.

Spring Recycle Fest at Shoreline Park & Ride; details on page 3.

10:00 a.m. to 2:00 p.m.

Ivy Out work party at South Woods Park

6:00 p.m. to 11:00 p.m.

Tween basketball classic for 5th and 6th graders at Spartan Recreation Center.

Monday, May 28

Memorial Day - City Hall, Spartan Recreation Center, and Shoreline Pool closed in honor of the holiday.

Wednesday, May 30

6:30 p.m. to 8:30 p.m.

SPU Steering Committee meeting at City Hall room 301

Saturday, June 2

9:00 a.m.

Eastside neighborhoods garage sale day, visit the City's website for details.

10:00 a.m. and 12:00 p.m.

Spring dance recital of recreation program dancers at Shoreline Auditorium.
