Hello, Could you please tell me how the hopefully new law to ban "ROOSTERS" in Shoreline will be determined. My neighbors (VERY LOUD) rooster is going off most of the day and is very annoying. I am out late usually and the damn thing goes off at 5:30 a m to midnight! I will not call the police and waste there time or lower my self to my neighbors level and call the police for no reason for a noise complaint as he has done on me. They do not care about there own neighbors and are very self centered people. City and Roosters do not mix!!!!
