Chris -

If Council were to approve the additional money, then staff would use the City's Pavement Management System to determine the specific projects - addressing those with the most need. Staff will be identifying the streets for the current \$1 million in the proposed CIP following the adoption of the budget prior to putting the bid together - again using the City's Pavement Management System. Just talked with Mark and don't have the specific streets yet.

Debbie,

If the Council were to allocate more money to road maintenance, do we know what streets would get repaved in 2014? Is this information in the CIP?

Chris
