To: Shoreline City Council Members:

Re: Reducing setbacks from 15 feet to 0 feet

I have noticed over the years that an "urban sense" of zoning has slowly encroached on residential settings. Taller and wider buildings totally out of proportion to the surrounding community. And now the idea to reduce setbacks.

I am totally opposed to Ordinance No. 654 and any change in setbacks.

I hope City Council Members will reconsider their decision.

Sincerely,

Ron Greeley
