Thank you Doris~

Attending the meeting is my preference as well.
I'm supposed to be tutoring tomorrow night, but, I'm trying to rework that part of my schedule.

I'm happy to hear the Setback recommendation is your preference as well.

This issue baffles me.

Sincerely,

Sherry

Sherry,

Thanks for taking the time to email all of us. We all received it this morning. You know that the council will be reconsidering this again on Monday. I will be supporting the Planning Commission's recommended setback but I never know if that will be what we vote on or some amended version. I do not know how the rest of the council feels so it would be good to put some pressure on us with your presence at the meeting. The email is a good start.

Sincerely,
Doris McConnell
Shoreline City Councilmember

Dear City Council,

As a voting citizen of Shoreline, WA, I'm asking you to reconsider the Planning Commission's recommendation that there be a 15' set back for commercial properties that are next to or across from single family residences.

It seems surprising to me that this email would even be needed as I do not understand why the Council would not have supported this to begin with.

Please help remind the citizens of Shoreline that you ARE concerned with protecting their quality of life.

No one wants a tall building (or any building) right on their property line.

It looks bad and feels bad.

Please do the right thing and protect the property of the citizens of Shoreline.

Respectfully,

Sherry Edwards
Shoreline, WA
