Transportation Impact Fee (TIF) Estimation Form

Effective 3/15/2024

The Transportation Impact Fee (TIF) Estimation Form is intended to provide a tool for applicants to assist in developing a preliminary estimate of their transportation impact fees. Such an estimate can be helpful for applicant budgeting purposes and to consider various development options. **This form is only a tool and should not be assumed to be the actual TIF amount due at building permit issuance.**

This form must be completed and submitted as part of the building permit application. During permit application review City staff will review the project proposal and calculate the actual TIF amount. The applicant will be notified of the final TIF amount prior to permit issuance. The TIF is payable as part of the permit issuance process. In some instances, applicants will be eligible for a credit to be applied to their TIF amount. Applicants may also opt to prepare an independent TIF Calculation, subject to SMC 3.80.060.

If you need any assistance completing this form, please contact City staff using the contact information above.

GENERAL INFORMATION

Project Name:

Address:

Parcel Number(s):

Prepared By:

Project Description:

PROPOSED & PRIOR LAND USES

Select the proposed Land Use Category/Description(s) from the drop down menu(s) below, and then enter the proposed number of units for each category/description. For projects with more than one proposed land use, be sure to enter information for each proposed land use. If there are any existing land uses that are being replaced then select the prior land uses from the drop down menu(s) below.

Proposed Land Use	Unit of Measure	Quantity	Person Trips	Rate	Preliminary
-------------------	-----------------	----------	--------------	------	-------------

Prior Land Use	Unit of Measure	Quantity	Person Trips	Rate	Preliminary
----------------	-----------------	----------	--------------	------	-------------

*Net Person Trips Generated:

**If the project generates more than 27 person trips, a Transportation Impact Analysis (TIA) will be required. See [Traffic Study Guidelines](#) for TIA scoping criteria. A TIA may also be required discretionarily on a case-by-case basis.*

TIF (Proposed use)

-TIF (Prior use)

Net TIF

Hourly Administrative Fee (If Applicable)

ESTIMATED TIF TOTAL

Proposed project is in High Activity Area (HAA), may qualify for discounted rate

Proposed project may qualify for exemption:

971	Brewery Tap Room	\$ 92.71 per sq ft	\$ 78.80 per sq ft
975	Drinking Place	\$ 107.13 per sq ft	\$ 91.06 per sq ft

Notes:

- Highlighted items are eligible for business exemptions per [SMC 3.80.070](#) effective through December 31, 2025.
- For *High-Impact Areas*, those showing “Not Applicable” do not receive a HAA discounted fee as per [SMC 3.80.075 \(A\)\(2\)](#).
- Land Use 988 – *Automated Car Wash* requires a Transportation Impact Analysis (TIA) to calculate the final fee required.
- Final determination of actual fees charged will be determined following review and confirmation of Land Use during the permitting process.
- *This sheet should only be used for estimation purposes. All "per 1,000 sq ft" in the original adopted fee schedule are converted to "per sq ft" here and are rounded to the nearest cent. Table includes all fees inclusive of those that are used administratively for the purpose of calculating exemptions.*
