7. Shoreline used to be one of the best places to live and grow a family. The new zoning would transform one of the neighborhoods that just started to become a community, North City, into a ghetto. We already can see the deterioration on the streets where the multi family apartment buildings were built in the last few years. The streets are dirty, congested and when I walk my dog at night I rather go on a street with a heavy traffic than risk disturbing the 'business' that is going on around there. It starts to look like crime hubs even now when the apartments are new and somewhat modern. Think on how it would look in 5-10 years. We don't feel secure anymore. Now you propose to change the zoning even more and implant that ghetto in the hearth of North City. It would attract the kind of population that will contribute to raising the crime rate here in this peaceful, clean and family oriented neighborhood. That is not what made Shoreline the best place to live two years in a row. Let's keep Shoreline clean and civilized!
