Council Members,

Need I echo the sentiment from my fellow neighbors and homeowners. Enough, stop, listen and readjust.

My family has resided in Shoreline for 75 years and I chose to do the same. I do not choose to stand by and passively watch the potential destruction of my community. I would like you to hear my voice and count my vote. No Action.

As several of our representatives face the challenge of re-election I reflect on the upcoming election. I remember (in previous elections) voting and making conscious decisions. I don't remember the promise of impending infrastructure, development and mandatory re zoning. Did I miss this election promise?

Please hear my voice as I vote to preserve my neighborhood and have control over my property decisions. I choose to live in Shoreline-as I know it.

Sincerely,

Homeowner
145th Corridor.
