---

Good morning,

I have forwarded a few of my comments to you before – in reference to THE URBAN CENTER and the traffic mess that has is store for the Richmond Beach Road area.

That said, rezoning certain areas will require some very solid background laid prior to the rezoning taking place. From what I gather – this rezoning will encompass the areas around what will be the METOR LIGHT RAIL Stations here in Shoreline. Has any forethought been given to what impact this will have on the present households living in these LIGHT RAIL Station areas ? What types of recourse do these present land owners have in reference to the taking of their prosperity along with the value of their homes ? Will they be paid fair market value or what ever METOR LIGHT RAIL decides it is worth ? Let us be fair about the dislocation of these people. Some have lived in these homes all of their lives.

A concerned citizen.

Thank you

Dick Craig
