7. The link below is from a KING 5 news report regarding housing changes in the Fremond district. The citizens are expressing exactly how many Shoreline citizens are feeling in the wake of rezoning changes for the light rail project. The Council hasn't done nearly enough due diligence in communicating the Council's vision regarding the affected Shoreline properties. Not only will citizens be displaced but the replacement properties will be too expensive or too small for the displaced citizens with no real priority for community parking. Those whose homes will be unaffected will still be living with construction noise, dirt and dust and they're justifiably concerned about their properties holding their values over time.
