7. In regards to the re-zone for the light-rail station along 185th street . I'm totally opposed to your brain storm for re-zoning this street so big time developers can reap a wind fall and take over the single family housing zone just so they can make big bucks at the expense of all the families that already live in this area . I bought the house I live in with my family in 2005 and have been updating my house with the yard I wanted to have for our future . If I wanted to live among multiple family dwellings I would have bought a house in Seattle . Sure you have a few meetings for citizen input , but you really don't care what we think or want. The shoreline city council just wants more urban villages with higher development at the expense of the single family residents that live both in the area of the 145th street and 185th street light rail stations .

Thank you,
City of Shoreline
