Hello,

We live just off N 185th St. Please reconsider what you are proposing to allow to happen to the neighborhood my wife and I have loved since 1992. We have always been proud of our neighborhood and are gravely concerned about the huge changes sure to come with the proposed radical rezone. Please consider a much smaller rezone around the light rail station for phase one, see how that develops and continue with what is needed and appropriate. The proposed rezone is sure to devalue property and increase crime in a much larger area than is necessary. Every neighbor I have spoken with has been either unaware of this and appalled to hear of what may happen or are aware and are angry and distraught over what this plan is sure to bring to our community. I do not know a single person or household who support the plan as it has been proposed. As people who vote, we would like to believe the community is being heard. Are you listening? Thank you for your consideration, Todd and Lori Rollins~
