Dear Mayor Winstead,

Would you please consider sponsoring the following amendment?

Purposed Amendment:

*Whereas the phased zoning map, Attachment A, Exhibit B, shows the rail station as a "potential" location, the implementation Phase I shall be contingent on Sound Transit selecting a rail station site within a quarter mile of the Attachment A. Exhibit B "potential light rail station" site .*

*[Rational]*

*If the reason for the zoning changes is the location of the Sound Transit Light rail station then it is reasonable to make the zoning plans dependent on Sound Transit's commitment to a station at 185th.*

Thank you,

Peter Watters
