7. Councilmembers.....you need to read this!!!!!!!!!!!!!!
 - Do YOU live in the rezone areas?

 - Will YOUR home potentially be adjacent to, have behind it, or be across the street from a multi-storied building(s)?

 - Will YOU retain your privacy in your own home and yard?

 - Multi-family structures attract a transitory type of lifestyle as opposed to single family homes that encourage permanence and investment in the community.

 - These rezones are placing hundreds of more people and cars in a very small geographical area.

 - Shoreline citizens willingly bought and invested in homes that are in single family areas.

 - The Echo Lake neighborhood already has a huge apartment complex, The Ballinger Commons and more recently numerous multi-family structures at the south end of Echo Lake.

 - Aurora Avenue has the Rapid Line Bus service. Build multi-family structures along this major transportation highway.

- Aurora Village has the Transit Center . Build multi-family structures there near that community transportation link.

These rezones are an incredibly bad idea for this area. They do not need to go so far back into neighborhoods and they do not need to be so concentrated in such a small area.

When you lie on your bed in your bedroom, sit down to dinner in your dining area, relax with family and friends in your backyard, use your bathroom...YOU will be able to do that without having tenants that are in multi-storied structures looking down into your home..... WE, the people in the rezone areas, will no longer be able to have that privacy.....it will have been taken away from us by you with the passing of these rezones.

The enormity of these rezones in the Echo Lake Neighborhood is absolutely RIDICULOUS and EXCESSIVE!!

LISTEN TO US, THE CITIZENS, WHO VOTED FOR YOU!

Thank you,
City of Shoreline
