Subject: 185th rezoning - too soon
Date: Monday, March 16, 2015 1:46:32 PM

I'm actually okay with the ultimate zoning area, but I take HUGE exception to the vast scope of Zone 1 which seems to be about 75% of all the rezoning. Zone 1 should be much smaller and around the immediate area of the station. All zones should be roughly the same size, and Zone 2 & 3 should have triggers like when the prior zone is 80% populated.

If the rezoning passes as it is now, I will be voting against all current council members in the coming elections. I will encourage my neighbors to do the same.
