7. I purchased my home just a little over two years ago. I was looking for a single family, single story, affordable home with a yard for my dog and for a garden. I am upset that just two years later, the city council is looking at rezoning my quiet, affordable little neighborhood. My house would be rezoned as MUR-45'. Had I wanted to live in a mixed use neighborhood, I would have purchased a home in such an area.

This is one of the very few areas in North King County where I could find a single family home in my price range. I am concerned what this rezoning will do to my lifestyle, the value of my house and options that will be available to me in the future. I have lived around construction before and it is not fun.

Please slow this process and allow for more time. There has been inadequate communication with the community. Due to the limited information, rumors abound.

I would also like you to consider how you would feel if your home was in this area because I doubt any of you live in the area earmarked for rezoning. Rezoning is a big deal and it is so easy to make someone else suffer the consequences.

Thank you for thinking of your constituents.

Thank you,
City of Shoreline
