6. 145th station sub area zoning
7. I'm a resident of Ridgecrest in the area that will be affected by the 145th light rail substation rezoning. I want to write and say that I am in SUPPORT of rezoning to a higher density. I prefer Alternative #3-compact community plan. I believe that Shoreline will continue to grow in size and attract more people who want to move here because it is a great place to live. I believe that we have to embrace changes like the light rail station and plan for the future rather than opposing change to the status quo. I realize it will have a huge impact on my neighborhood but I see it as a positive one. I feel that increasing the housing density strategically in areas that are close to major transportation corridors, is a necessary sacrifice in keeping other neighborhoods intact and it only makes sense that it should be done in areas that are within walking distance to the planned stations.
8. (o) Support

Thank you,
City of Shoreline
