Hi;

We are only renters, we don't own the place, but your plans for a new Rezoning of Shoreline is awful.

There is lots of old trees which took hundreds of years to grow. How do you plan for those ? I don't see you incorporating them in your plans.?

There has to be a more humane way to have multifamily dwelling than the cages of these apartments apodmends

Isn't there a way the trees can be incorporated into the plans. What I see for the future of shoreline is atrocious.. unconscionable.

Please explains.

Thanks

Birgit Ages
