---

Please approve docket item 1 for further study and direct City staff to study setting a v/c ratio limit on collector arterials. Thank you!

I do not see any mention of Richmond Beach Road as an ARTERIAL in any of your comments.

Comprehensive Plan Docket 1 is very important to the Shoreline Residents who live along Richmond Beach Road between 8th Ave. NW and Puget Sound.

If and when URBAN CENTER is at full capacity – 3500 PLUS egress and regress trips will flow along Richmond Beach Road. AT times – we who live along Richmond Beach Road are not able to gain access – especially if you cross over to the opposite direction lane – for a period of 2 to 5 minutes - depending upon traffic flow and time of day. The additional egress and regress trips will compound the problem to the point of total grid lock from the Puget Sound to Aurora Ave. This is totally unacceptable.
