Dear Council

RE: APPROVE Comprehensive Plan Docket # 1 on 6/15/15

I think it is CRITICAL that there be an evaluation of whether or not to set a v/c ratio limit on collector arterials. I fear without that assessment, our collector arterials could end up with FAR MORE traffic than is appropriate which would result in a significant reduction in my quality of life, as well as those of my fellow neighbors throughout Shoreline.

Please APPROVE Comprehensive Plan Docket #1 so that this potentially harmful situation can, at worst case, be assessed, and at best case, be avoided altogether..

Very truly yours,
