

Street Trees

Planning & Community Development

17500 Midvale Ave N
Shoreline, WA 98133
206-801-2500
pcd@shorelinewa.gov

The following information is intended to educate property owners and contractors of the general requirements regarding trees approved for planting and/or replacement when planting trees in the public right-of-way is required. It only applies to public street trees, not trees on private property or those in parks or unopened rights of way. A right-of-way use permit is required for planting or removing street trees in the rights-of-way adjacent to the applicant's property according to the tree variety and spacing listed in Appendix G of the Proposed 2014 Engineering Development Manual.

The updated Street Tree List was recommended for approval by the Parks, Recreation and Cultural Services/Tree Board on December 4, 2014, after public notice and opportunity for public comment. Please see the Engineering Development Manual or the Approved Street Tree List at:

www.shorelinewa.gov/engineeringstandards

For more information regarding trees on private property please see the [Tree Regulations for Private Property Development Handout](#).
