Dear Council,

We are sending 3 video clips of Little Creek at Paramount Park.

These demonstrate just one area with significant problems in the 145th Rezone area. This is why massive up zones will be inappropriate for the zones surrounding Paramount Park. It is already overwhelmed with Stormwater. This is also vital wildlife habitat. These culverts are long overdue for replacement and are illegal.

We ask that these clips be made part of the record on the upcoming Subarea comment period, as well as for the 145th Corridor upgrade.

And add this to your comments for Environmental Priorities discussion for tonight 's Council meetings.

Hi Heidi,
I think I figured out how to get it on YouTube. Please post as a comment.

This the first one.

Thanks,
Janet
