6. Wage Raise and Paid Sick Leave
7. I just want to record my support for increasing the minimum wage and making provisions for paid sick leave here in Shoreline. As Seattle grows our lovely city is affected, and that includes a widening income gap and increased hardships on the less fortunate among us when they must take time off because they're sick. Shoreline is at a crossroads right now; with light rail expansion and continued growth around us this is the moment where we can choose to continue to be a city where people love to live, work, and play, or we can choose to ignore our human responsibilities and become a place where we don't care about people and their situations.

You may hear people say that increasing the minimum wage or paid sick leave will put stress on businesses and lead to them leaving our city. This is the same argument some people made in Seattle when these issues were being discussed, and those people have been proven wrong as our neighbor to the south continues to grow and thrive. Please support these actions for Shoreline as well!
8. (O) Support

Thank you,

City of Shoreline
