Subject: Please preserve the wetlands and our parks from unchecked development in Shoreline
Date: Monday, May 02, 2016 2:39:11 PM
Importance: High

Dear Council:

Please preserve Shoreline's own inherent natural resources that includes Paramount Park and Twin Ponds Park. "Wetlands are vital for clean water and wildlife habitat and the Paramount Park is one of the largest in Shoreline at 6.9 acres." It will be deleterious to Shoreline's future residents and our wildlife to lose such valuable open space. Use good science and not pro-developers' agendas to make the best decisions on such important issues. Please listen to an engaged and informed public that went out of its way to comment and submit a science based report from an actual wetland scientist.

**Regards,
Nancy Morris**
