Shoreline City Council members -

I am excited about the light rail, growth and future of our city, Shoreline. I am a long time resident of Shoreline and the parent of an adult with a developmental disability who graduated from Shoreline schools and still attends the Shoreline Specialized Recreation programs.

Our care provider, Jill Rogers, lives close to where the 145th Street Station is located which opens many opportunities for our young adults to be a part of this exciting growth! Jill's plan is to continue providing quality respite care for many Shoreline families, but also to add a housing unit for several people with disabilities- the opportunity of affordable housing (Section 8) with staff support.

Please include 15824 5th Ave NE in the MUR-35 rezone for affordable and accessible housing for people with developmental disabilities. Instead of stopping at 158th, expand to 160th which is the end of the block or farther- even if it is just the east side of 5th Ave NE.

Our adult children want the chance to stay in Shoreline- and the housing options for this population are sadly few and far between! We desperately need affordable and accessible housing options in Shoreline!

Thank you for your time and attention to this matter!
