## Shoreline City Council

### Regarding 145th Sub Area Plan

The council should REJECT Councilman Hall's amendment to rezone the area on 6th Ave NE between NE155 st and 145th NE. It should stay in R6 or MUR35 instead of going from small to huge size.

I have lived in Shoreline area for over 30 years. Shoreline city is a very nice place for people to raising their family. Our neighborhood should remain to R6, sub-area plan would be a very serious problems, our roads are too small for emergency vehicles and school buses and if there are so many condos , apartments or business were added to it.

Please consider the 5th ave NE is a very busy street right now, when the big buildings all stand on this street , how can it provide more lane for traffic. I really appreciate the council please think of the citizens first and not the developers.

Thank you for your attention!
