Dear city council,

Councilman Will is not representing our community. Mr.Hall is very eager to rezone lower Ridgecrest like he was for the 185th neighborhood. He talks of community sacrifice for transit development, but he and his wife live by themselves far from any potential rezone in Richmond Beach in a palatial 2890 square foot home on a quiet culdesac. He has appealed his property taxes 3 times, and pays about the same as I do for a home half his size. He does not represent our community. He is fine with sacrificing neighborhoods, just not his own.

And Councilman Keith McGlashan should recuse himself from any rezone vote since he became a realtor during the rezoning process. We shouldn't let a fox vote to rezone the chicken coop.
