7. Please keep the neighborhoods west of and adjacent to Paramount open space as R6. This is an important buffer for these wetlands. There is only one way in and out of both neighborhoods, and barely enough parking for residents.

Why don't you work with property owners on 5th Avenue first, and then expand out into a second phase if that is successful. Please don't allow additional large development along 145th either, it is already congested before the light rail brings in more congestion. Development MUST include parking for every unit. Everyone has cars, they might take the bus or train to work, but they still need to park the car they take to go hiking, skiing, to the dog park, and anywhere east and west.
