Subject: transitional housing
Auto forwarded by a Rule

Please do not allow transitional housing in all zones.

I have experiences in Ballard which make this an unattractive and dangerous decision.

I babysit in Ballard three days a week. On the end of the blocks there are trailers parked with people living in them. They wander the neighborhood during the day looking for things to steal. I watch the pile of bike towers grow throughout the week. One man carries a large rock which he sends through windows. Hypodermic needles litter the ground. The alley has piles of human excrement. We cannot let the kids play out in the yard without being outside with them to keep people at bay.

Please do not allow this to happen in Shoreline.

Thank you,

Kathleen Bergsman
