Subject: Back yard camping. Really  
Auto forwarded by a Rule

How are these back yard campers going to be VETTED? What if my neighbor wants to set up campers? Why as neighbors should we have to put up with campers? My son just moved to Shoreline and was broken into and his truck stolen. Squatters and a tent in the property next door. Person arrested next door with another stolen truck in possession 2 days later. Will this foolish idea also affect all areas of Shoreline including the area with covenants?
