Subject: Storage facilities
Auto forwarded by a Rule

It is with some concern that I write about this to you. I noted the other day that the empty lot next to Mann welding is being turned into a storage facility (SF) and thought why? Then I see that there are 3 granted and 6 more potential storage places. Please put a stop to those. I do not want Shoreline to turn into a storage facility city with rows of them along Aurora. We are striving to look like a lovely place and having SF after SF is not going to help that, nor should we be the kind of place that offers so many. I appreciate your close attention to this. Shouldn't we be working to draw in higher end businesses? Not cheap structures (or cheap looking) , but true services beyond storage. I for one think it too much. Thanks you for your time.
