Subject: New Zoning Law to Allow Tent City Encampments in Shoreline Back Yards
Auto forwarded by a Rule

Please tell me that you are kidding? Please tell me that you are working for US the citizens of Shoreline. I have now lived next door to two Tent City's hosted by a church, and have worked at SPU where we hosted a Tent City. I know what is involved in the welfare to maintain safety and sanitary conditions. This takes many more volunteers to assure comfortable living spaces for the residents of Tent City and the surrounding neighbors. This type of respectable diligence can never be monitored by a mom and pop giving up their back yard. We should be spending our energy fixing the homeless problem NOT adding to it. PLEASE I URGE YOU for the well-being of the citizens (especially the elderly and young children) of Shoreline DO NOT lighten up on this zoning restriction! If families would like to house homeless people then they should have the courage to use their own family structure not their back yards. This is NOT fair for anyone involved. Even the homeless!

Please listen to the outcry of your community that you represent.

Sincerely, Karen Gutowsky, 15th and 195th
