Subject: Adoption of Res No. 401 - declaring City of Shoreline "Sanctuary City"

City of Shoreline Council Members and Mayor,

I am writing to you with respect to the Adoption of Res No. 401 to have the City of Shoreline, Washington become a "Sanctuary City".

I am adamantly against (i.e. do not support) passage and/or adoption of Res. No. 401 for the City of Shoreline, Washington to become a "Sanctuary City" for the following reasons:

It is against the Federal Law of the U.S.A. to harbor illegal aliens. The law was enacted and passed for a reason. There are legal processes for a foreign person to become a legal citizen of this country. In addition there are legal processes to obtain a working VISA. I suggest you encourage people to follow the existing law and

not just break it. In addition what is the percentage of Federal funding that will be revoked? You and not me as a taxpayer is responsible for making up the difference like no salary, pensions, health care benefits, etc.

I do not pay all of these taxes to create an unlawful and dangerous city full of illegal aliens that are criminals/terrorists/drug cartels, but a safe community to live in that serve the legal tax paying citizens of this city and country. I'm not suggesting that all illegal aliens are criminals, but you have to look at the complete picture.

The City of Shoreline just passed a tax increase in November 2016 elections to improve city parks, fire and police departments, etc. I didn't vote for this increase to just see it evaporate in order to tie the hands of the police officers with respect to illegal aliens that are criminals. What happens in a Sanctuary City if a criminal is found to be here illegally from another country? How is that

handled?

Can they be deported? Or do we have to pay to keep them in jail? That is not what I want my tax dollars going to. We have enough issues to deal with currently in our city without adding to them.

Sanctuary Cities are a “Welcome Flag” that attract and harbor illegal aliens that are criminals, gang members from drug cartels, etc. Again, you have to look at the whole picture and not just your rose hued view of the situation. “Two-thirds of all outstanding felony warrants in the city of Los Angeles involved illegal aliens -- as well as 95% of outstanding murder warrants.”

<http://www.dailywire.com/news/10816/5-things-you-need-know-about-sanctuary-cities-aaron-bandler#.WIEiHQXh6zw.email>

I suggest you read the complete article. What do you think gang members from drug cartels are like? Kind and nice people with good

manners. No, they will kill people to get what they want. Do you want to see a naked man hanging from the I-5 overpass and 175th street? You say, oh no that would never happen. Really??? Don't be so naive to think it doesn't happen. It does happen outside of San Diego from people in the drug cartel.

If you want to help people from a different country, then use your own money to support them through charities. Other option is for you

to sponsor a person to become a legal citizen of the U.S.A.. The Federal Law is in place for a reason to protect its citizens. It use to be if you immigrated to this country you had to pass a health inspection. The reason is to prevent disease from entering our country and creating an epidemic.

I do not support passage or incorporation of this legislation Res. No. 401 to create a “Sanctuary City of Shoreline, Washington” and blatantly violate Federal Laws in the U.S.A.. I will hold each City of Shoreline Council Member and Mayor in office on January 20, 2017

personally and legally liable for any consequences if this resolution No. 401 passes or is incorporated as well as the City of Shoreline.

This includes decreasing property values, increased crime rates, etc. Sincerely,

Linda Lawrukovich
