We cannot attend the meeting tonite and we are very disappointed that the City Council would ever entertain the idea of the City of Shoreline becoming a Sacutuary City!

It is against the Federal Law, and it will endanger the law abiding citizens of Shoreline' We are talking about our tax dollars that are supporting the City of Shoreline!

Our Sheriffs Dept is against it and they could not do their job to protect us. Elections will be coming around and citizens do not forget who voted for this. Would like to know whose idea

this was? We have alleys that are used as roads, we need those widened so we can walk safely to pick up our mail, we need underground utilities etc

The city should spend more time and fix things here instead of wasting all this time on meetings!
