Agenda Item (if applicable) N. City Maint. sidewalk project

Comments:

As a point of clarification the E side of 25th is the more logical daylight creek side due to the N. Maint. facility being on pause. Daylighting on the W. side current plan would require 1/4 of the N. Maint facility site which is unlikely to happen within 5 years.

The West side sidewalk would be installed permanently regardless of these daylighting plans as the walking access will be required.

Thanks!
