

## **The City of Shoreline Notice of Public Hearing of the Planning Commission**

Description of Proposal: The City of Shoreline is proposing changes to the Shoreline Development Code that apply citywide. The non-project action to amend the Development Code includes provisions that expedite the availability of spectrum for commercial mobile broadband. Section 6409(a) of the Spectrum Act imposes substantive and procedural limitations upon local government authority to regulate modifications of existing wireless antenna support structures and base stations. The Federal Communication Commissions (FCC) subsequently issued implementing regulations in 2015, codified at 47 CFR §1.40001, which became effective in April 2015.

Given that the enactment of the implementing federal regulations, the City's development regulations related to wireless facilities must be amended to bring them into compliance with the mandate imposed by Congress in Section 6409(a) of the Spectrum Act and the FCC regulations contained in 47 CFR §1.40001.
