

# Lynnwood Link Extension

## Meeting Notice

July 19, 2017

## Stream Buffer Work Neighborhood Meeting

Residents and property owners who live or own property within 500 feet of the I-5 interchange loop where Sound Transit will build the light rail structure in the stream buffer of McAleer Creek are receiving this notice and meeting invitation. Sound Transit is providing this opportunity as a requirement of the City of Shoreline's Critical Area Special Use Permit application process for the Lynnwood Link Extension project. Please join us to find out more about the details of the work at the I-5 Interchange at 205<sup>th</sup> Street, ask questions of staff, and provide comments on the project impacts to critical areas in this location.

### Meeting details

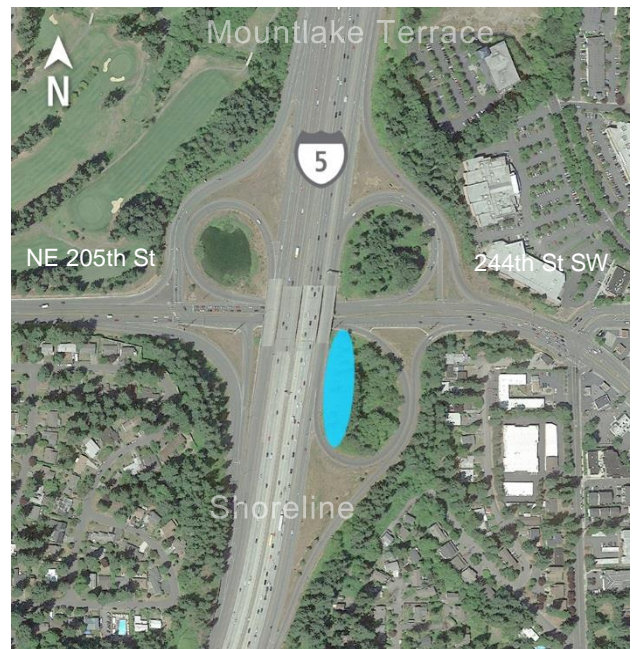

**Location:** Shoreline Library  
345 NE 175th St., Shoreline 98133

**Date:** Thursday, August 3, 2017

**Time:** Stop by any time between 5:30 - 7:00 p.m.

### Proposal

In the City of Shoreline, the light rail route will run parallel to I-5 on the east side of the interstate. It will cross the I-5 interchange loop and SR 104 on an elevated guideway approximately 60 feet above the grade of I-5. To support the elevated structure, four columns will be constructed along the west side of the interchange loop, spaced approximately 120 feet apart. The columns and transit guideway in this location are entirely within State owned right-of-way. Zoning adjacent to State land includes R6, R24 and Community Business.

Stream buffer work area in Shoreline.
