Sir or Madam,

In looking for a new Utility Yard for our City, please do not consider changing Hamlin Park. I was surprised such a beautiful park was in my neighborhood when we first moved here. My family visits here often and we would hate to see it turned into a parking lot or storage area. Pavement is forever and space for nature is quickly on the decline in our time. I implore you to seek accommodations by considering working out a deal with the North City Water District to share their new yard or something else.

R/  
Richard Smith
