

Light Energy

Light Energy by Elise Koncsek (2017, pictured above) at Brugger's Bog
19553 25th Avenue NE

“Light Energy” consisted of three installations hidden in Brugger's Bog Park. The art was assembled from laser cut transparent acrylic and salvaged materials. Each piece was designed using shapes that fit perfectly in a single square foot area to reduce waste material. For questions, contact the artist at SunbirdArtWorks@gmail.com”
