6. 9a: Sidewalk Discussion
7. I reluctantly support the increased car tab fee, given the poor condition of sidewalks such as that on 5th Ave NE from 155th to 175th. The car registration burden is significantly higher now given ST3's approval. However, the need for walkable neighborhoods is real - and the \$20 is distinct from fees for mass transit.  
  
I support reconstructing this neighborhood backbone, for the safety and accessibility of our residents. Our family cannot even navigate a stroller on this street, without fear of tipping our infant daughter. We try to visit the businesses of Downtown Ridgecrest (165th) frequently, but are forced to walk on streets without pedestrian separation from vehicle traffic.  
  
I envision refurbishing 5th Ave NE will present it as the showcase arterial it was intended to be. For a \$20 annual investment, this could increase desirability of the neighborhood and draw new amenities to the business district (growing tax revenues further).

Thank you,
