Subject: [EXTERNAL] No on increased car tab tax
Date: Monday, November 27, 2017 12:54:36 PM

We're writing to let you know we are against the \$20 tax increase on cars that you will be considering tonight. This additional tax is a burden on working families and retired residents on a fixed income.

If new revenue is needed, how about requiring multi family developments in commercial zones such as North City to include businesses on the ground level?
