5. 06/11/2018
6. 8a ROW vacation on 25th NW
7. The Richmond Beach reserve an adjacent right of ways have a long-standing history with the community.

We know what it takes to maintain green open space .

If the council approves the vacation of portion of the Right-of- Way the conditions it would work best to include the following;

1)modifying the existing view easement to add the vacated ROW space in the description, and definitions to maintain from views for the public from 22nd NW.

2)not adding the proposed Native Growth Protection Easement (NGPE).
Now that we have looked into the details of the plan it's complicated to maintain .
having private land requiring permits for maintenance via city management.

Modify the existing view easement would be a better solution.

Chrissey
