6. Discussion of Ordinance No. 833 - Amendments to Shoreline Municipal Code Chapter 20.50 for MUR-70' Zone Tree Retention
7. I am disappointed in the Planning Commission's recommendation to reduce tree retention requirements for MUR 70 and allow the removal of significant trees. The climate is changing and is getting warmer. The recent hot weather is a worrying signal of what increasing average temperatures and climate change will bring. I just read another article about the impacts and costs of the extreme heat to people and the economy. I urge the Council to reject the recommendation of the Planning Commission to reduce tree retention requirements. Please think through the impact of short term gain versus the long term benefits of a livable, healthy environment for people and the economy.
Thank you.
8. (o) Oppose

Thank you,
City of Shoreline
