

Lynnwood Link Extension

Construction Alert

August 2018

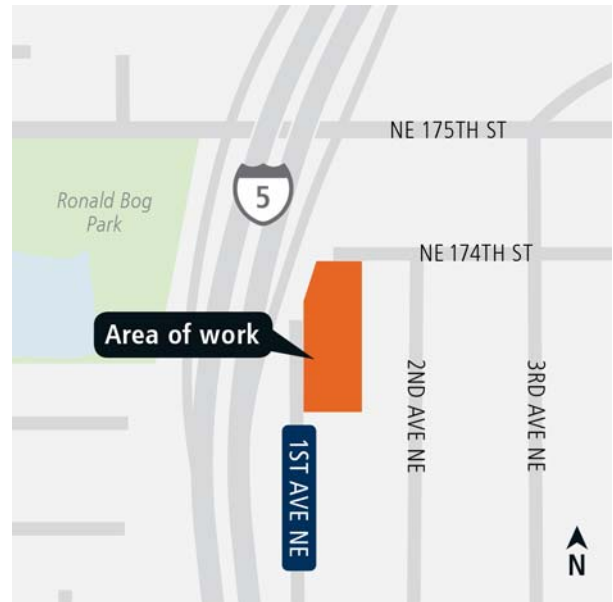

Shoreline early demolition work

Early demolition work for the Lynnwood Link Extension is scheduled to begin in early September on Sound Transit owned residential properties in Shoreline. Six structures are scheduled to be removed on 1st Ave NE, south of NE 174th St. This demolition will last approximately one month.

Demolition work will take place during normal daytime work hours and the crews will make every effort to minimize noise, dust and debris to the extent possible. Street access will be maintained during this time.

As part of Sound Transit's commitment to sustainability, authorized salvage companies will remove materials prior to demolition and the contractor will recycle clean wood, metal, concrete and other usable demolition debris.

This early demolition work is an important step in the Lynnwood Link Extension. It will help clear the path for construction activities slated to begin in mid-2019 and minimize any potential unauthorized activity at these sites.
