RE: Interlocal Agreement for Climate Collaboration

CC: Jesus Sanchez *JS*
Brian Landau *BL*
Rika Cecil *RC*

In 2011, the suburban cities and King County decided to collaborate and form a regional partnership to increase efficiency, effectiveness and the ability to leverage solutions and funds, in order to reduce greenhouse emissions and support regional climate protection.

To formalize membership in the Collaboration, an Interlocal Agreement (ILA) has been developed for all member cities to sign. The ILA provides the details of the intent of the Collaboration and the work plan for participating agencies.

In addition, the ILA commits the City to a financial contribution of \$2,000, in order to participate as a member city of the regional Collaboration. The amount is based on the City's population, and the funds are currently in the 2012 Environmental Services budget.

On December 12, 2011, the City Council authorized you to sign the ILA. Please sign both copies of the attached ILA, and return them to Environmental Services.

If you have any questions, please call Rika at -2452. Thank you.

INTERLOCAL AGREEMENT FOR CLIMATE COLLABORATION

This Agreement ("Agreement") is entered into pursuant to Chapter 39.34 RCW among participating **Cities of King County**, (hereinafter referred to as the "Cities"), and **King County**, (hereinafter referred to as the "County"), 201 S. Jackson, Suite 701, Seattle, WA 98104 (collectively, "the Parties") Chapter 39.34 RCW.

Whereas, we, King County and the undersigned Cities of King County, wish to work together to directly respond to climate change and reduce global and local sources of climate pollution;

Whereas, we believe that by working together we can increase our efficiency and effectiveness in making progress towards this goal;

Whereas, we are interested in achieving this goal in a way that builds a cleaner, stronger and more resilient regional economy;

Whereas, we are interested in focusing on local solutions to leverage and partner with related collaborative efforts;

Whereas, partnering on sustainable solutions will advance progress towards Cities' environmental, climate change, and energy goals such as those adopted by the nearly half of King County Cities that have signed on to the U.S. Conference of Mayors Climate Protection Agreement;

NOW, THEREFORE, the Cities and King County mutually agree as follows:

1. Purpose and Scope of this Agreement

1.1 The purpose of this Agreement is to outline responsibilities and tasks related to the County and Cities that are voluntarily participating in the King County-Cities Climate Collaboration. The Parties will develop and coordinate on the following efforts:

- (a) Outreach: Develop, refine, and utilize messaging and tools for climate change outreach to engage decision makers, other cities, and the general public.
- (b) Coordination: Collaborate on adopting consistent standards, benchmarks, strategies, and overall goals related to responding to climate change.
- (c) Solutions: Share local success stories, challenges, data and products that support and enhance climate mitigation efforts by all partners.

- (d) Funding and resources: Collaborate to secure grant funding and other shared resource opportunities to support climate related projects and programs.
- 1.2 It is not the purpose or intent of this Agreement to create, supplant, preempt or supersede the authority or role of any individual Party.
- 1.3 All tools, outreach materials, data, collaborative efforts, and other resources that are developed as part of this Agreement are optional for Cities and King County to adopt or utilize.

2. Organization

- 2.1 Each Party shall appoint one designee and an alternate to serve as its representative. Upon the effective execution of this Agreement and the appointment of designees and alternate designees for each Party, designees shall meet and choose, according to the voting provisions of this section, representatives to serve as **Chair** and **Vice Chair** to oversee and direct the activities associated with meetings including the development of the agendas, running the meeting and providing leadership.
- 2.2. No action or binding decision will be taken without the presence of a quorum of active designees or alternates. A quorum exists if a majority of the designees present at the meeting. Each designee shall have an equal vote, with a supermajority vote of 75% of all designees being required to approve the final scope of the collaboration program or amend the scope. Any vote to increase the amount of funding required by each Party, however, shall only be binding on those who specifically agree to such increase.
- 2.3 Designees shall have the authority and mandate to administer the Tasks outlined in Section 3.
- 2.4 Designees may approve a Request for Qualifications (RFQ) to secure a vendors or consultants needed to accomplish any Task, and shall interview one or more applicants and make an appointment provided sufficient funds are available.
- 2.5 Designees shall meet and report on a quarterly basis to ensure that Tasks are efficiently, effectively and responsibly delivered in the performance of this Agreement, including the allocation of resources.
- 2.6 Designees shall develop an initial annual work plan and budget which will be finalized within one month of approval of the Agreement by the Parties. Subsequent annual work plans will be developed and approved on or before the anniversary of the adoption of the first years' work plan in conjunction

with budget planning for consideration and adoption by the Parties' legislative bodies.

- 2.7 If direct payment in support of the annual work plan, such as for consultant services or hiring staff, can be arranged by participating Cities, this is preferred. If direct payment occurs, these funds will be accounted for towards that city's contribution. If this is not possible, funds collected from any source on behalf of the Parties shall be maintained in a special fund by the County as *ex officio* treasurer on behalf of the Collaboration. The County shall also serve as the contractual agent for the Parties in acquiring any services needed to complete Tasks of the Agreement.

3. Tasks

- 3.1 Climate Collaboration Work Plan.

Finalize the Scope of Work for this King County-Cities Collaboration consistent with this Agreement. This will take place after commencement per Section 5 of this Agreement and is funding-dependent.

- 3.2 Sustain the King County Cities Climate Collaboration (Budget \$10,000)

Pay necessary expenses to support expansion of the King County SWD GreenTools Roundtable program to include every other-month forums on climate-related sustainability issues. The Roundtables will be held at various venues throughout King County and topics will focus on the collaborative actions highlighted in the King County-Cities Climate Pledge: outreach, coordination, solutions, funding and resources. Speakers will include King County and City staff and other invited partners.

- 3.3 Hire a staff member, partial staff member, or consultant to support achieving the priorities identified in the King County-Cities Climate Pledge (Budget \$9,000-\$80,000 depending on commitments made)

- (a) The staff member will help lead implementation of the King County-Cities Climate Collaboration initiatives, including but not limited to: sustainable transportation; clean fuel vehicles; community energy retrofits; renewable energy projects; community outreach; and other topics defined and agreed upon in the final Scope of Work or annual Work Plans. Staff could develop and implement a general countywide program that supports City sustainability projects or programs. Staffing options include hiring a part- to full-time staff from King County or a participating King County City to lead the effort.

- (b) Products that will be developed, to be clarified in the process of finalizing the Scope of Work, and dependent on funding, include:
1. Directory of local climate solutions related resources to include:
 - a. County technical expert pool. A list of relevant County technical experts on staff that already support city sustainability projects and programs. This could be expanded with mechanisms for cities to directly contract with County staff to support implementation of specific projects and programs.
 - b. Technical experts from all participating jurisdictions that could help support other cities' efforts, share local success stories, or potentially be contracted out to work with other cities.
 - c. Technical experts from academia, research institutions, utilities and other organizations.
 - d. List of consultants with local experience and expertise on a diverse range of climate and sustainability related functions.
 - e. Best practices and lessons learned from relevant local projects and programs.
 2. Symposium for city and County staff focused on local climate solutions.
 3. Forum for all local technical experts – a broader group than those engaged in the King County-Cities Climate Collaboration – to share information and best practices
 4. Opportunities for local governments to increase understanding and gather information on specific climate change mitigation efforts.
 5. Other products as defined and agreed upon in the process of finalizing the Scope of Work, provided they are consistent with the King County-Cities Climate Pledge and focused on sustainability and climate change related outreach, coordination, solutions, or funding and resources.

4. Funding

4.1 The minimum required financial contribution for each King County City to participate in this Agreement is shown below. In no event shall the Cities be responsible for amounts incurred by King County in excess of what is set forth in this Agreement without an amendment according to the terms hereof.

4.2 To the extent this Agreement is renewed annually, the Parties shall update the work plan and contribute funds to King County for estimated costs, as described below, in advance of services provided. Any funds not used in any given year will be used in the execution of the following year's Work Plan or refunded, on a proportional basis based on initial contributions, within forty-five (45) days in the event of a Party's termination of this Agreement.

4.3 The Parties represent that funds for service provision under this Agreement have been appropriated and are available. To the extent that such service provision requires future appropriations beyond current appropriation authority, the obligations of each Party are contingent upon the appropriation of funds by that Party's legislative authority to complete the activities described herein. If no such appropriation is made, the Agreement shall terminate as to that Party provided the Party provides notice of termination prior to the other parties adoption of the annual work plan per Section 2.6.
