City Councilmembers and Staff,

Even on the date that the Council will here the rezone proposal for 1510 and 1517 NE 170th St, Irons Brothers Construction, who is illegally operating a construction office and construction utility yard business in two residential (R8) lots, is parking their commercial business vehicles and several employee vehicles on the street instead of in the lots where they claim they always keep all of their construction, employee, and visitor vehicles. Why would they follow the rules after this rezone is approved if the existing rules are not enforced?

Please post this email for today's Council Meeting.

Thanks for your consideration,
Save Shoreline Neighborhoods group of over 200 residents opposing this rezone.
