

BACKGROUND

The College is building new student housing on campus. The housing project is part of the College's Master Development Plan (MDP). The City approved the MDP with a requirement that the College make long-term and near-term improvements to the public road system. The College is required to construct these improvements as they develop their campus.

Improvements coming in 2019

Before the student housing building opens, the College will build sidewalks:

- On the north side of NW Innis Arden Way from the College entrance to Greenwood Ave N.
- At the intersection of Greenwood Avenue N with N 160th Street/ NW Innis Arden Way.
- On the north side of N 160th Street between Greenwood Avenue N & Dayton Avenue N.

Improvements coming by 2025

The College is required to improve the intersection of Greenwood Ave N with N 160th St/ NW Innis Arden Way so that it meets the City's standards.

The City is developing a design concept for improving the intersection. The College will finalize the design and build the project **by the Fall of 2025**.

We know this is an important intersection for the neighborhood and want your input in the design. Please stay tuned for opportunities to participate, and public meeting information.

WHAT TO EXPECT NEXT

- Updates from the College about the construction schedule.
- Information from the City about the design project.
- Opportunities to share your knowledge and experiences with the City.

Student Housing: Street Frontage Improvements

*Improving safety, access, and mobility
on Greenwood Ave N, N 160th St, and
NW Innis Arden Way*

Spring 2019—Construction Impacts

2019 SIDEWALK FRONTAGE IMPROVEMENTS

The sidewalk project will replace existing sidewalk, ramps, and driveways that do not meet accessibility standards.

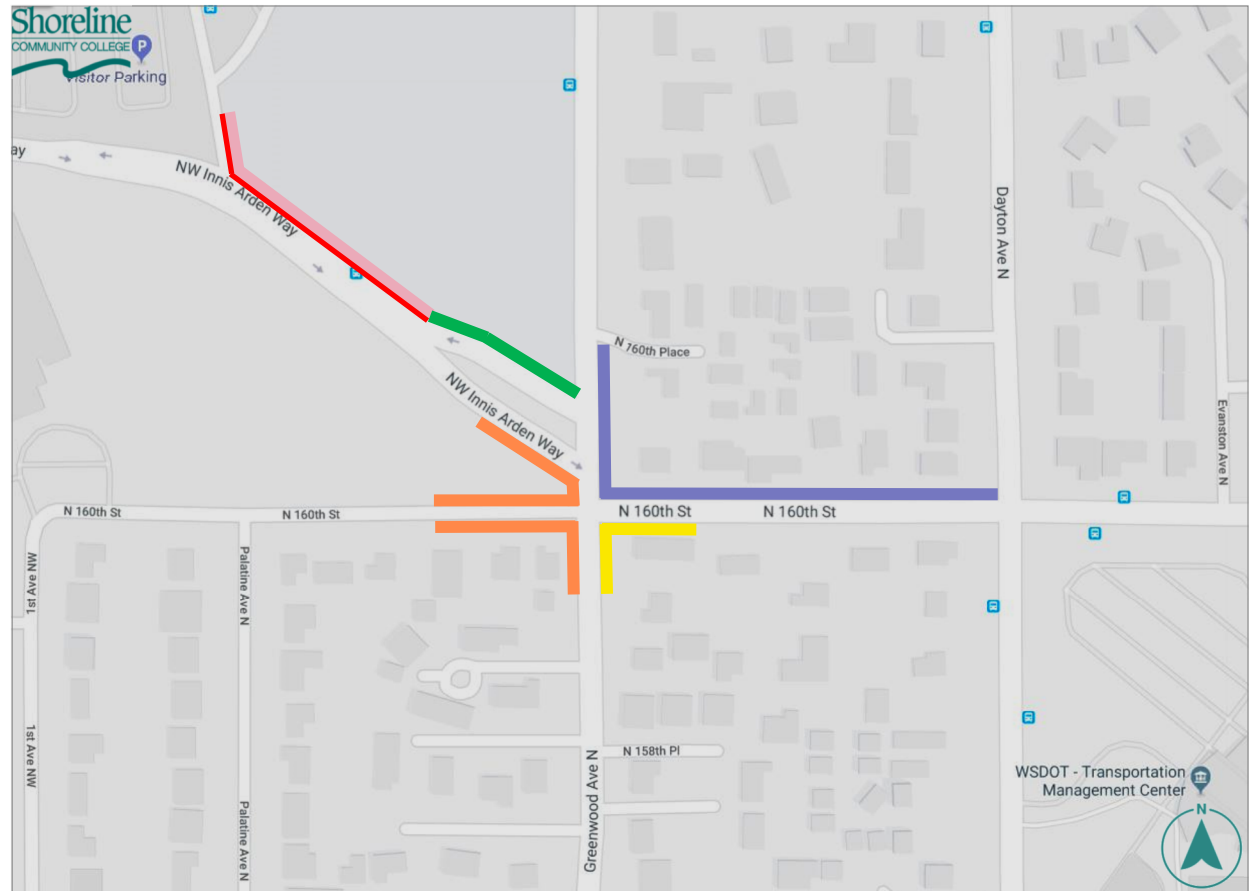

The new sidewalk on N 160th Street will narrow the roadway slightly. The change will impact the existing on-street parking and travel lanes:

- **Parking** - The narrower road will require the removal of on-street parking on both sides of the street between Greenwood Ave N and Dayton Ave N.
- **Travel Lanes** – The road will still have turn lanes at the intersections and one travel lane in each direction. The remaining roadway will be used for a marked bicycle lane going uphill and a “sharrow” marking in the downhill travel lane.

Construction impacts in 2019

- Disturbances to landscaping and paving in the public right-of-way.
- Selective tree removal.
- Mailbox relocation (not to affect the delivery of mail).
- Temporary loss of two-way traffic (all work to be completed between the hours of 9am-3pm).
- Removal of on-street parking along N 160th St between Greenwood Ave N & Dayton Ave N.

2019 Construction Phasing Plan

Key

- Laydown/Storage
- ▬ Phase 1 - Innis Arden Storm
- Phase 2 - Greenwood Ave - SE Intersection
- Phase 3 - 160th & Greenwood Ave
- Phase 4 - Greenwood Ave - West
- Phase 5 - Innis Arden Way

NOTE: Improvements shown will be constructed in 2019.
