9. As stated in a previous email I have concerns about the original Shoreline Place development presentation to us Shoreline citizens vs the updated version which reduces retail & open space & increases apartment units. It is very important to have all owner partners take the time to come to an agreement on specific issues that have divided them. I can assure you, the Planning Commission, that we are watching this closely.
A few items that I'd like you to take into consideration--

N. 160th is a steep, dangerous & long stretch that will need more than the one pedestrian crossing than has been allotted.

Sears needs to be taken down sooner than later. There should be a deadline.

Central Market & other businesses will require full parking & service access at all times during development.

Thanks
