

The City of Shoreline believes that when residents are well-informed about how their City operates, how decisions are made and funds allocated, they will make informed decisions about the future of their City.

PROJECT GOALS:

- Involve and engage residents in learning about and understanding the operation of City government;
- Provide insight into how decisions are made, how City funds are allocated, and how City departments operate;
- Empower and encourage a larger number of residents to become more civically engaged in the future decisions affecting Shoreline's quality of life.

Have you ever wondered who maintains our roads, how the City creates a budget, or plans for the future of our parks?

Citizens will have an opportunity to answer those questions and more through the Shoreline CityWise Project.

The Shoreline CityWise Project is an 8 week opportunity for Shoreline residents to learn about the City's government and operations.
