Dear Planning Commission and Councilmembers,

After the October 17, 2019 Planning Commission Meeting (Public Hearing), several Planning Commissioners requested that we submit to the City an electronic file of the map that was presented. One Commissioner had suggested that the City could project it on the screen to make it easier for the Commissioners and public to see. One Commissioner had stated that it would help if we changed the color of the subject properties at 1510 and 1517 NE 170<sup>th</sup> St to make it easier to see at a distance. The attached map includes some color/visual enhancements and additional details and geographical references.

Please see the attached map and include it in the next Planning Commission Meeting – Public Hearing (scheduled for 11/21/19) and the following applicable Council discussion and Council Public Hearing meetings (scheduled for 12/2/19 and 12/9/19, respectively). Please project this file on the computer screens and overhead display during the staff report(s) and/or during our public comment period.

Let us know if you have any questions or problems with viewing or displaying the attached file.

Thanks in advance,

Mark Rettmann for Save Shoreline Neighborhoods
